Transports to and from airports, stations, hotels and business parks: in practice we take you anywhere.

Our operations centre is available full-time to draw up itineraries, answer your questions and provide personalized quotes.

Linea Blu – Why freight transport is a company resource

Freight transport is much more than a service: it's a company resource which can make a difference from many points of view. Our philosophy is that of a solution provider who can guarantee an almost infinite number of services, benefits and management methods designed to satisfy every requirement, from the simplest to the most complex, for every type of customer and need.

Our strengths

***Flexibility.** Thanks to the variety and number vehicles available we are able to distribute and manage any type of freight in Italy and abroad.

***Real-Time traceability.** Every Linea Blu driver has a BlackBerry in order to inform the customer immediately of the progress of the consignment through private access.

***Higher performance, lower costs.** Continuous research and technological innovations make it possible to offer services with high added value designed for customer who use the internet as the main means of interaction with Linea Blu's operations centre. Looking at our list of services, you will find the means of managing your company's freight transport with a cost reduction of up to 40%.
